

- 1) It's so easy in November to let the dark in -
Lonely and cold through the lengthening night,
But then comes December with a promising grin,
Time to make a better magic out of laughter and light!

CHORUS: Put together some kind of wonder,
To the beating of hearts, string a bright melody;
Make a little Christmas magic,
Make a little magic with me!

- 2) You can't buy your heart's desire, forget about that!
Those who give away joy receive joy in return.
Pull a rabbit of hope out of Santa's red hat,
Pin your wishes to a candle and watch the wick burn!

- 3) Pay attention! Sleight of hand may be quicker than eyes,
Now you see it, now you don't, the mystery grows –
Wrap a generous spirit with the gifts of the wise!
In the warmth of a welcome blooms the Christmas rose!
